SAGARA '93

PROLOGUE:

It is a time of **war.** In the dark voids between the stars, the battlecruisers clash! In the empty wastelands of the planets, the tanks rage forward to the pounding of the guns. In the shopping malls of a thousand worlds patriotic tee shirts and little plastic flags reap in the zlotys.

It is time fit for heroes! A majestic time when weapons have reached their fullest flower as the ultimate fashion accessories. Tanks fly! Skirt hems are up - flares are out. Wooden nickels are legal tender. It is an age when talented individuals can shine.

The peaceful worlds of the **Pan Vulpine Coalition** battle for their very lives. The **P.V.C.** has had its harmless territorial demands met with wanton aggression. Now the Coalition's homeworlds are invaded by the sinister forces of the dreaded **Vole Imperium** (or **VIMP's** for short).

The Coalition are cheerful freedom loving democratic peoples who express their love for peace through a maniacal obsession with guns and uniforms. The Imperium, on the other hand, believe in centralized authority and unified galactic government. Therefore, they must be stopped at any cost!

The Coalition has now formed an all female tank battalion. The **101st Heavy Tank Crushing Battalion** has seen one brilliant success after another due to its finesse in dress sense, pose and drama. Now deployed on the planet FRAMMENWANGER, the 101st storms gloriously onwards to new heights of fashion! No shopping will be left undone, No enemy will be left unturned! It is the age of heroines!

It is the age of...

Tank Vixens!
